We know that you are busy and we are always trying to find ways to make our services more convenient for you.

Modern Family Dentistry is committed to providing the highest level of service and as such we have recently implemented a new technology solution that will allow us to send you important, timely messages without interrupting your busy schedule.

This exciting new service gives us the ability to send text messages to the device of your choice: your cell phone, smart phone, and/or your email. Since we send text messages and email messages you don't have to answer or return a phone call. Simply read it and respond at your convenience. We think it's the best solution for reminding you of your appointments and keeping in touch with new and exciting things that we are doing at our office.

Sending reminders to your mobile devices allows us to remind you even when your not at home. We know that no one want's to miss appointments, but sometimes daily activities get overwhelming for all of us and we just simply forget. With this in mind we are excited to be able to send appointment reminders, announce any contest/giveaways we are doing, newsletters, and any other important information you may need to know about.

It is our suggestion that if **you text**, list your cell phone number below and this will allow you to *easily* confirm an appointment through text. If you also wish to receive any newsletters and contest/giveaways, please **ALSO** (in addition to listing your cell phone #) list your email address below.

However, if you **do not** text and you **only** email, **do not** list your cell phone number **JUST** your email address. This way, our system will not send you a text message on your mobile device.

Please fill out the following fields to receive text messages and/or email messages from our office:

Name: _____

Email: _____

Cell Phone: _____

Thank you for choosing Modern Family Dentistry and we look forward to providing you with the best dental care possible!uy
